

# HURRICANE CHECKLIST

- Familiarize yourself and your team with the Standard Operating Procedures so that you'll know what to do when the storm is approaching.** Each year the SOPs are tweaked based on what we learn from the outcome of the last storm. If you aren't sure you have the latest copy, contact John Williams.
- Be sure your facility has a signed Mutual Aid Agreement with SCHA,** under which hospitals agree to help each other in an of evacuation. You have a far-reaching network to help absorb your patients. At the end of the day we're one South Carolina.
- Review your Emergency Operations Plan, off-site or in-place.** This plan spells out where and how you'll provide lodging and 96-hours' worth of food, water and medicine for staff and patients.
- Make sure your critical data sheet is up-to-date with DHEC.**
- Make sure your contingency power system is adequate.**
